

AVALON

OUTLINE OF NEW FEATURES

1. Exterior Color

Total of 7 exterior colors – 4 carryover colors and 3 new colors:

Color (Color No.)	Note
White Purl Mica (051)	Carryover
Silver Metallic (1C8)	Carryover
Black (202)	Carryover
Dark Red Mica (3Q7)	New
Beige Mica Metallic (4Q2)	Carryover
Grayish Green Metallic (6M3)	New
Dark Green Mica (6S7)	New

2. 1MZ-FE Engine

The following chart describes the changes from the 1MZ-FE engine on the previous Avalon to the 1MZ-FE engine on the new Avalon.

Item	Outline
Fuel System	<ul style="list-style-type: none"> ● A quick connector is used to connect the fuel pipe with the fuel hose to increase serviceability. ● A compact fuel pump in which a fuel filter and pressure regulator are integrated in the module fuel pump assembly is newly used.
Other	Configuration and structure are the same as 1MZ-FE engine on the previous Avalon.

3. SRS Airbag System

- Dual-stage SRS airbag system is used for the driver and front passenger airbags. This system controls airbag inflating output optimum by judging the extent of impact for front passenger airbag, and the extent of the impact, seat position and seat belt wearing condition for the driver airbag.
- Basically, no changes have been made to the SRS side airbags.
- An active circuit is used in the SRS warning light circuit in order to illuminate the light when there is an open or short circuit in the wiring harness. For details, [see page 23](#).
