System	Page
Active Height Control Suspension & Skyhook Tems	DI-1
2. Anti-Lock Brake System	DI-1 <u>6</u>
3. ABS & Vehicle Stability Control (VSC) & Brake Assist (BA) System	DI-30
4. Power Tilt and Power Telescopic Steering Column	DI-55

## FOR USING HAND-HELD TESTER

- Before using the tester, the tester's operator manual should be read thoroughly.
- If the tester cannot communicate with ECU controlled systems when you have connected the cable
  of the tester to DLC3, turned the ignition switch ON and operated the tester, there is a problem on the
  vehicle side or tester side.
  - (1) If communication is normal when the tester is connected to another vehicle, inspect the diagnosis data link line (Bus⊕line) or ECU power circuit of the vehicle.
  - (2) If communication is still not possible when the tester is connected to another vehicle, the problem is probably in the tester itself, so perform the Self Test procedures outline in the Tester Operator's Manual.
