19. Navigation screen cannot change to the night mode color.

INSPECTION PROCEDURE

1	Check the setting. (Is it set to Day Mode in screen adjustment?)

> **Yes** > Normal

No

2	Check if the screen is dimmed at night. (With the light control switch ON, do all screens except the navigation screen appear in Night Mode?)

> **NG** > Go to step 5.

OK

3	Does the beep sound by operating switches on the navigation screen?

> **OK** > Replace the navigation ECU.

NG

4	Check "AVC–LAN communication circuit". (See page DI–275)

> **NG** > Replace or repair AVC–LAN circuit.

OK

Replace the navigation ECU.

5	Check the multi display.

CHECK:
Measure the voltage between terminal DR and GND1 of the multi–display.
OK:
DR: Above 9 V

OK ⟩ **Replace the multi display.**

NG

Replace or repair wire harness.
